**Frameworks:** Spring Boot, Hibernate, JPA, RESTful APIs, React.js  
**Databases:** Oracle, MySQL, PostgreSQL, SQL Server  
**Tools:** Eclipse, IntelliJ IDEA, Git, Maven, Tomcat  
**Concepts:** OOP, Design Patterns, Agile, Unit Testing

## Professional Experience

---

### Xstore Technical Consultant

OLR, Bengaluru, India

*Aug 2023 – Present*

- Spearheaded the enhancement of Oracle Retail Xstore POS features for 100+ retail stores, achieving a 15% improvement in system efficiency.
- Optimized business logic for retail flows such as payments, discount handling, surcharges, and coupon management, leading to a 60% reduction in transaction errors.
- Designed and deployed advanced Java modules integrated with the Xstore framework, boosting store operation speed.
- Analyzed and implemented backend solutions, reducing system downtime during configuration updates by 30%.
- Revamped receipt formatting, promotional offers, and store parameters, improving the customer experience and increasing satisfaction metrics by 25%.
- Collaborated with cross-functional teams to streamline production releases, decreasing bugs in new releases by 40%.
- Delivered production support and executed rigorous regression testing, ensuring system stability and performance for over 100 stores during upgrades.

## Education

---

### Bachelor of Engineering in Electronics and Communication Engineering

DR TTIT, KGF, India

*July 2022*

## Projects

---

### Food Delivery Web Application

*Java, Servlets, JSP, MySQL*

- Developed a high-performance food delivery application managing over 500 customer orders per day, significantly improving the user interface and system reliability.
- Integrated secure user authentication and session management, boosting security compliance by 15%.
- Enhanced UI responsiveness using CSS, increasing customer satisfaction by 20%.
- Project available on GitHub.

### Portfolio Website

*React.js, Firebase, JavaScript, CSS*

- Constructed a professional portfolio website with React.js, showcasing over 10 personal projects and elevating visitor engagement by 30%.
- Integrated Firebase for secure user authentication and deployed to Firebase hosting, achieving 99.99% uptime.
- Project available on GitHub.

### REST API for Social Media Application

*Java, Spring Boot, Spring Data JPA, Spring Security*

- Engineered a robust REST API for a social media platform, streamlining post interactions and user management.
- Implemented secure authentication using Spring Security, enhancing platform security by 20%.
- Utilized Lombok to reduce boilerplate code, cutting development time by 15%.
- Project available on GitHub.

## Certifications

---

### Oracle Retail Xstore Technical Implementation

Oracle, 2023

### Java Full Stack Development

Jspiders Bengaluru, 2022

### Spring Boot and REST API by Ranga

Udemy, 2022
